ENEL CHILE IS ONCE AGAIN AMONG THE WORLD'S SUSTAINABILITY LEADERS IN THE FTSE4GOOD INDEXES

- The Company reasserted its position in the FTSE4Good Index Series mid-year reviews, where Enel Chile has been included in the prestigious global measurement every year since 2018.

Santiago, June 7, 2023 - The FTSE4Good Index Series includes Enel Chile again, an index ranking the world's best companies in environmental, social, governance (ESG), and transparency practices. The Company's commitment to sustainability is present throughout its value chain, which is recognized by this prestigious ranking, consolidating Enel Chile leadership in these matters, and validating its business strategy and partnerships.

Enel Chile stands above the industry average in environmental, social, and corporate governance factors in this new mid-year selection.

FTSE4Good praised Enel Chile's commitment to integrating ESG practices into its business strategy throughout its value chain. The rating agency highlighted Enel Americas' practices and transparency on various issues, including resource and water management, climate change, human rights, risk management, and anti-corruption practices.

The Enel Group's global leadership in this area is also present in other prestigious sustainability indexes and rankings, such as the DJSI World and Europe, the MSCI ESG Leaders indexes, the CDP Climate "A" list, the STOXX Global ESG Leaders index, the ISS "Prime" ranking, the Bloomberg Gender-Equality Index, the Refinitiv TOP 100 Diversity and Inclusion Index, Equileap's Top 100 Gender Equality world ranking and the ECPI indexes.

The Group is increasingly attracting the attention of Socially Responsible Investors, whose stake in the Company is steadily growing, representing around 14.9% of Enel's share capital by the end of 2022, more than doubling compared to 2014. This increase reflects the financial market's importance to non-financial elements in creating long-term sustainable value.

Enel's long history of inclusion in the world's leading sustainability indices is backed by its commitment to creating long-term value for its stakeholders and contributing to the sustainable development of the local areas in which it operates.

Enel Chile's outstanding ranking in the FTSE4Good Emerging Latin America Index is matched by Enel Americas, with the same distinction. The Enel Group appears in the mid-year FTSE4Good Index and Euronext Vigeo-Eiris at the world, European, and Eurozone levels. In the latter index, Enel maintained its place in the World 120 and the regional Euronext V.E Eurozone 120 and Europe 120 indices, ranking the 120 most sustainable companies among the 500 largest free-float companies in the eurozone and Europe.

The Spanish subsidiary Endesa also received recognition in the FTSE4Good Index Series and the Euronext Vigeo-Eiris indices at the global, European, and Eurozone levels.

ABOUT FTSE4GOOD:

FTSE4Good is a series of London Stock Exchange stock market indices, led by FTSE Russell, which assesses companies worldwide on environmental, social, and governance (ESG) issues.

The FTSE4Good index seeks to provide investors with reliable data on companies' ESG performance, which must be listed on a global stock exchange. The assessment, updated every six months, analyzes more than 4,000 companies worldwide and includes more than 300 indicators in 14 different topics, grouped into three pillars: Environmental, Social, and Governance.

The indexes are FTSE4good Global Index, FTSE4good North America, and FTSE4good Emerging Latin America Index. FTSE4good Europe Index.
